

NOTES:

1. If the stock 516F-2 transformer is used, DO NOT use solid state rectifiers. Use the original 5U4 and 5R4 tubes.
2. Relay K1 is Magnecraft 750XBXM4L-120A (Mouser part number 528-750X4-120A (A relay with a different mounting base will have to be used if the original tube rectifiers are retained.)
3. Surge suppressor Z1 is Mouser p/n 576-V20E130P (120V) or 576-V14E300P (240V).
4. Schematic shows upgraded or added components only.
